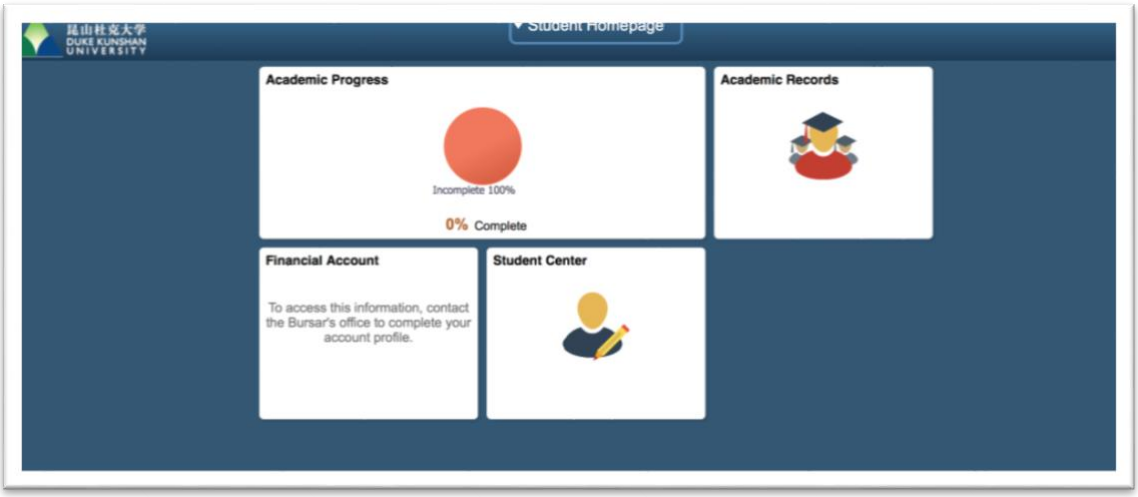
1. Login Student Center

1.1 Student Center Home Page

Access to the Student Self-Service center will be via this URL: https://sispub.dukekunshan.edu.cn.

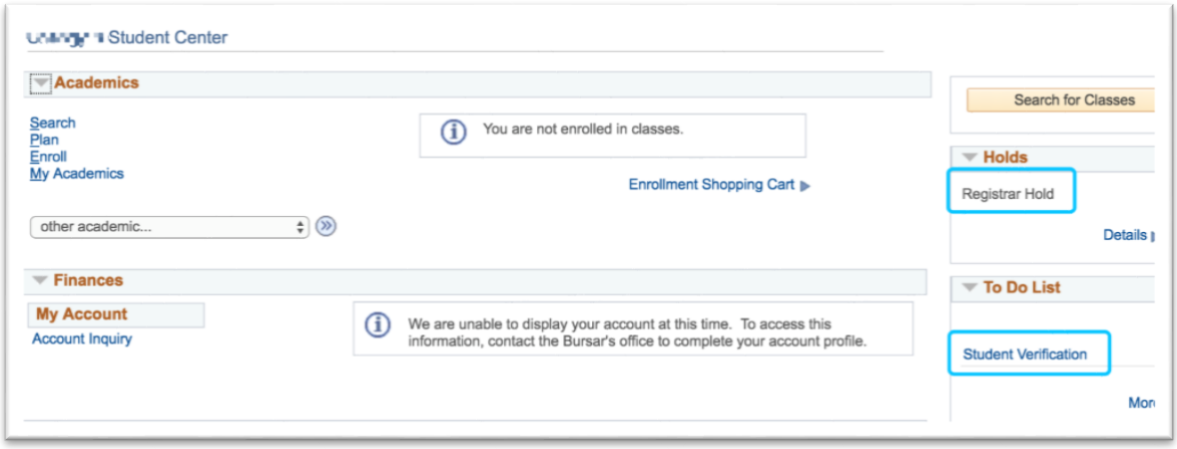


This will land you to the Student Homepage with four tiles, which will give you quick access to different information.

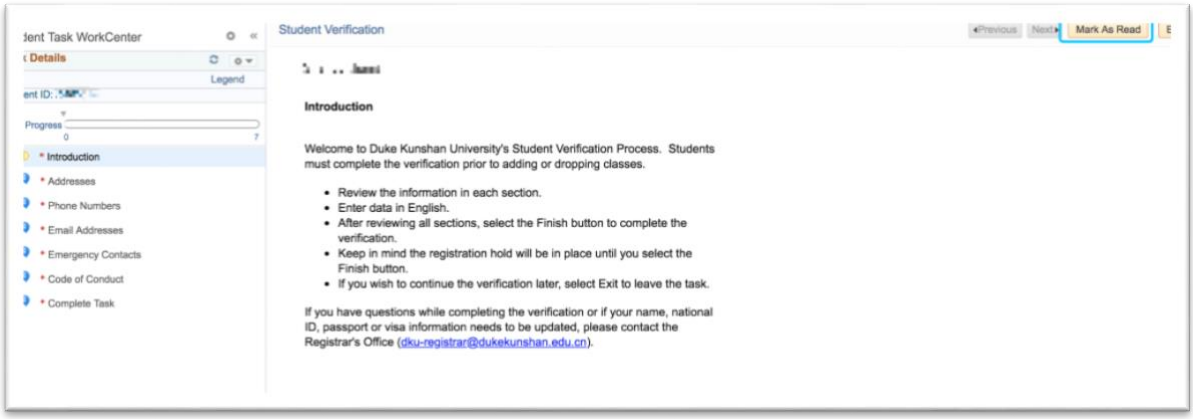
Click on Student Center, the Student Center is a starting place to handle most tasks related to registration. You are now able to quickly access your Student Center and stay on top of important information related to registration.

1.2 Student Verification

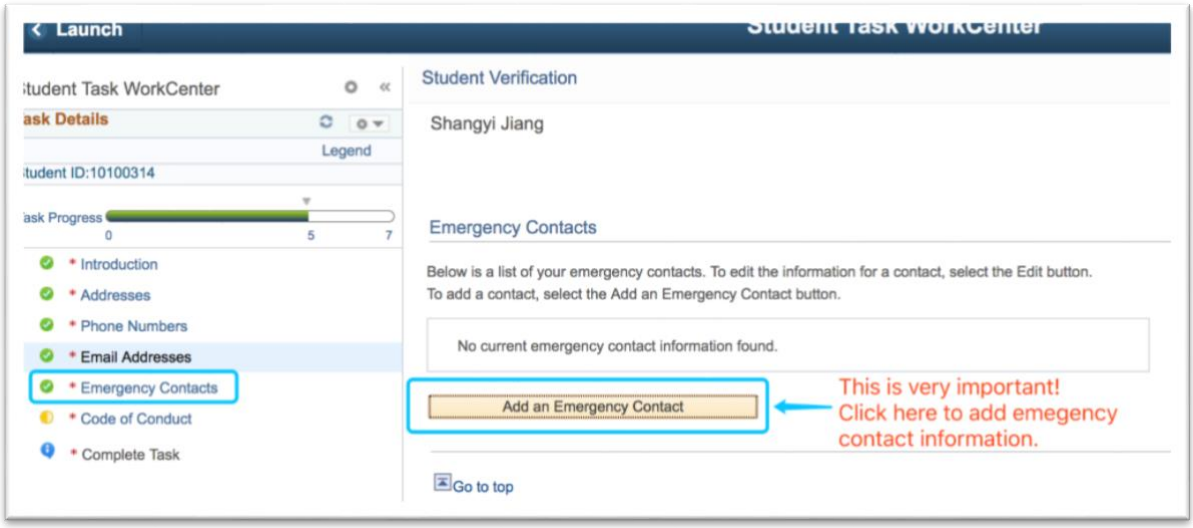
At the beginning of each semester, the university will implement a mandatory verification/update of students' personal information. A registration "Hold" is assigned to each student for this task. Without completing this task, students will be prevented from any registration activities.



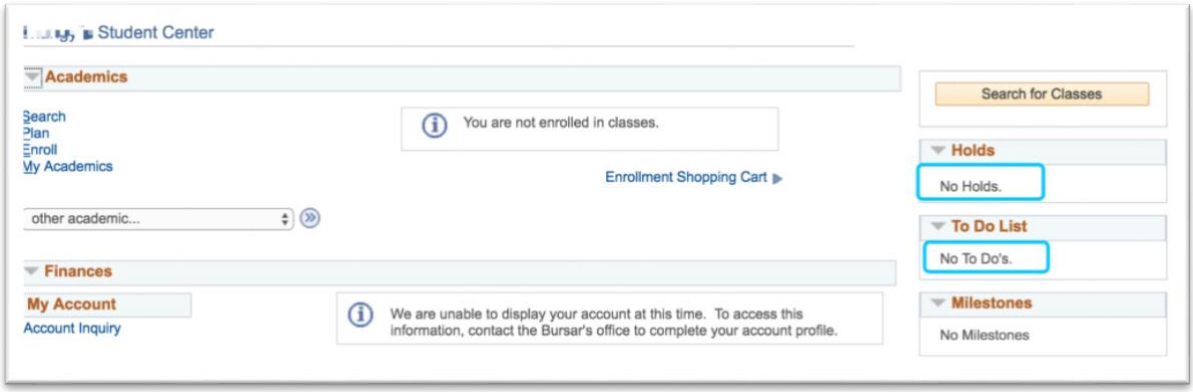
To remove this "Registrar Hold", you will need to click on "Student Verification" and it will lead you to a page where you are expected to complete a series of tasks. Read the "Introduction" and use "Mark As Read" or "Next" on the upper right corner to complete all the steps.



The “Emergency Contacts” task is very important and you should add your emergency contact information by clicking on “Add an Emergency Contact” and fill out the detailed information, including name, relation, phone number and etc.



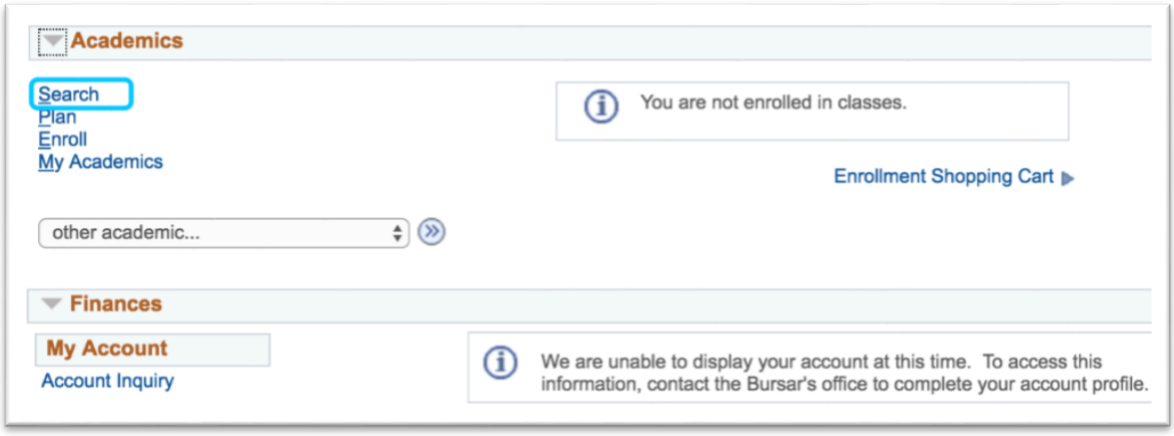
After you complete all the tasks, the page will change automatically to your “Student Center”, you will notice the “Registrar Hold” and “Student Verification” are removed from your center. You can now proceed to your registration if there is no other “Holds” on your record.



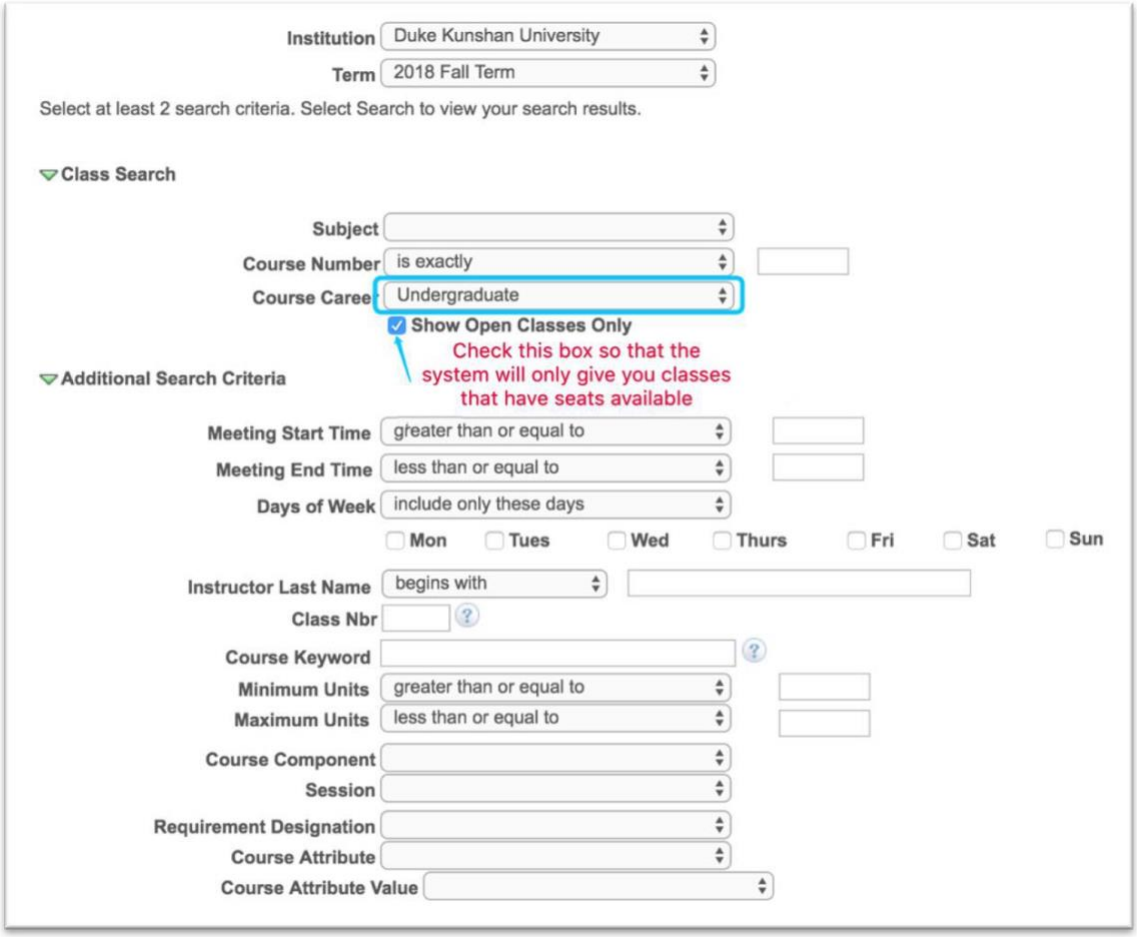
2. Registration

2.1 Class Search

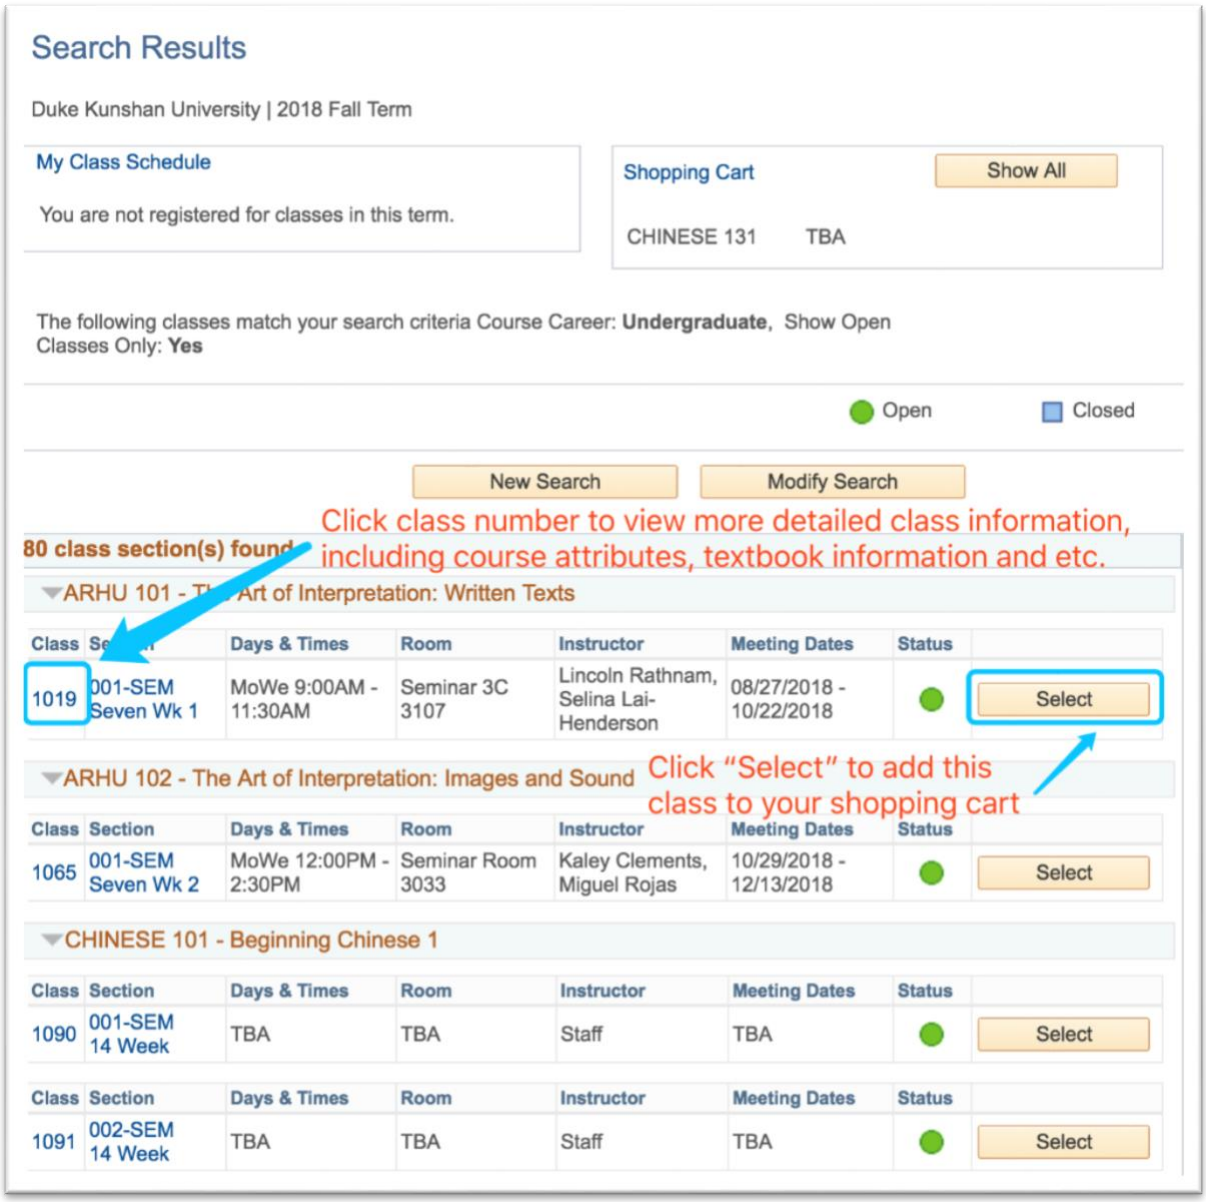
"Class Search" function allows you to search for classes offered by a semester. Click on "Search" on the upper left corner in your Student Center.



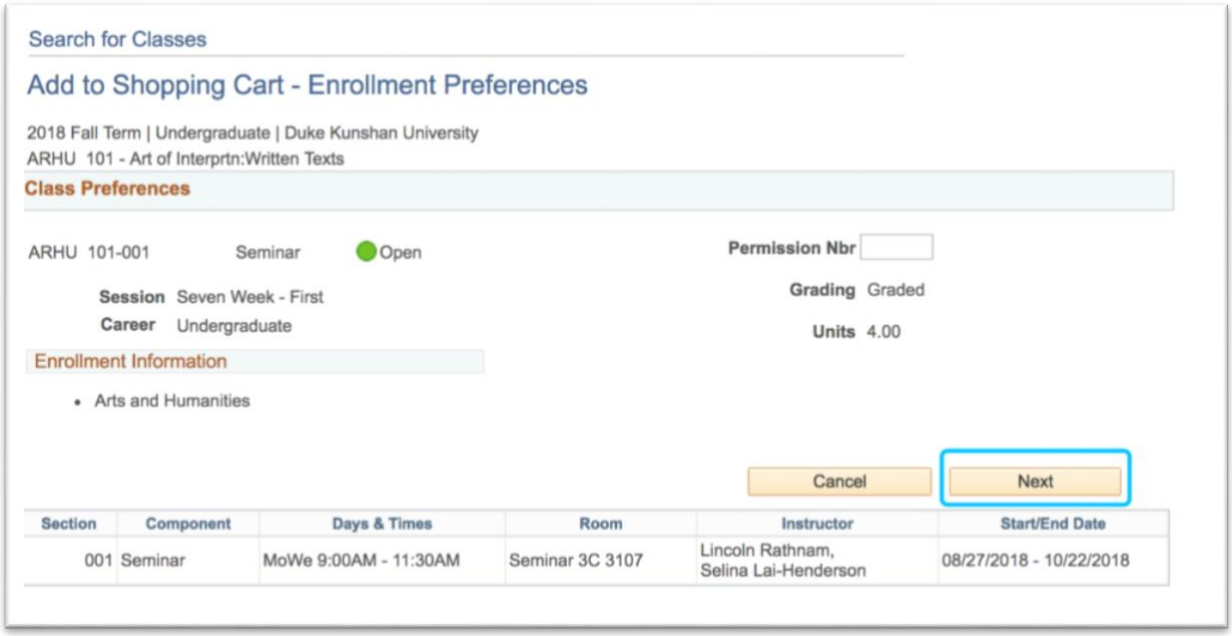
On the "Search for Classes" page, you will be allowed to search for classes by "Search Criteria". If you want to have an overview of all the classes offered in the semester, you can choose "Undergraduate" in the dropdown list in "Course Career". Click on "Search", then the system will give you a list of open classes offered in the term you selected.



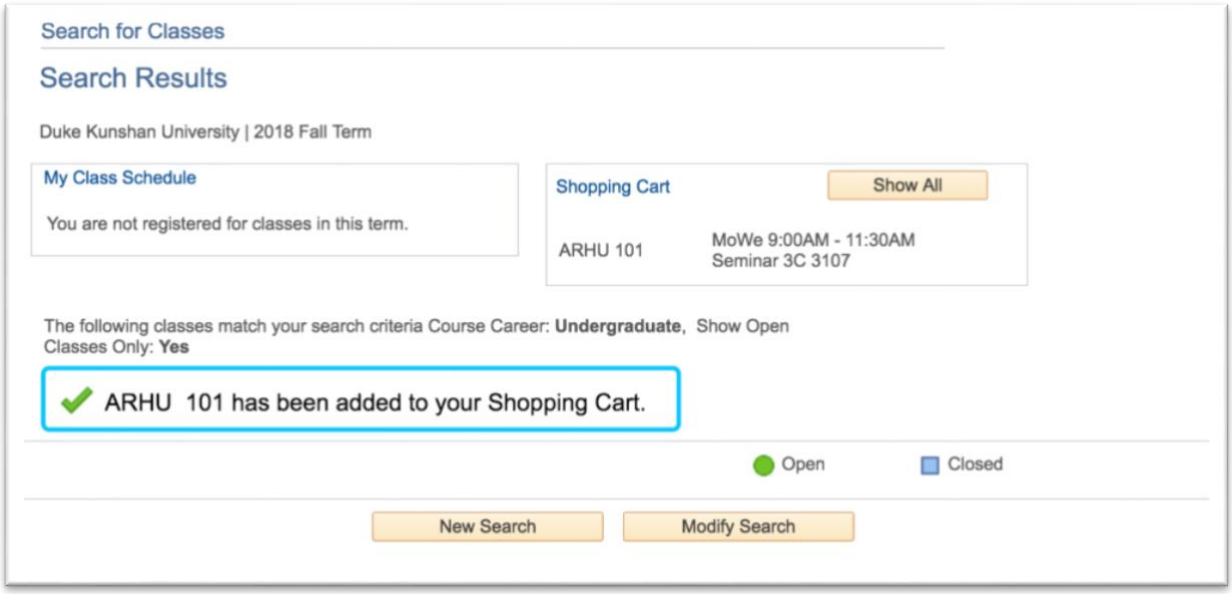
On the “Search Results” page, you can click on the four digit “Class Number” to view the more detailed information about this class, such as class attributes, number of seats available, course description, textbook information and etc. If you are interested in this class, you can proceed to click on “Select” to add this class to your shopping cart.



Click on “Next” to finish adding this class to your shopping cart.



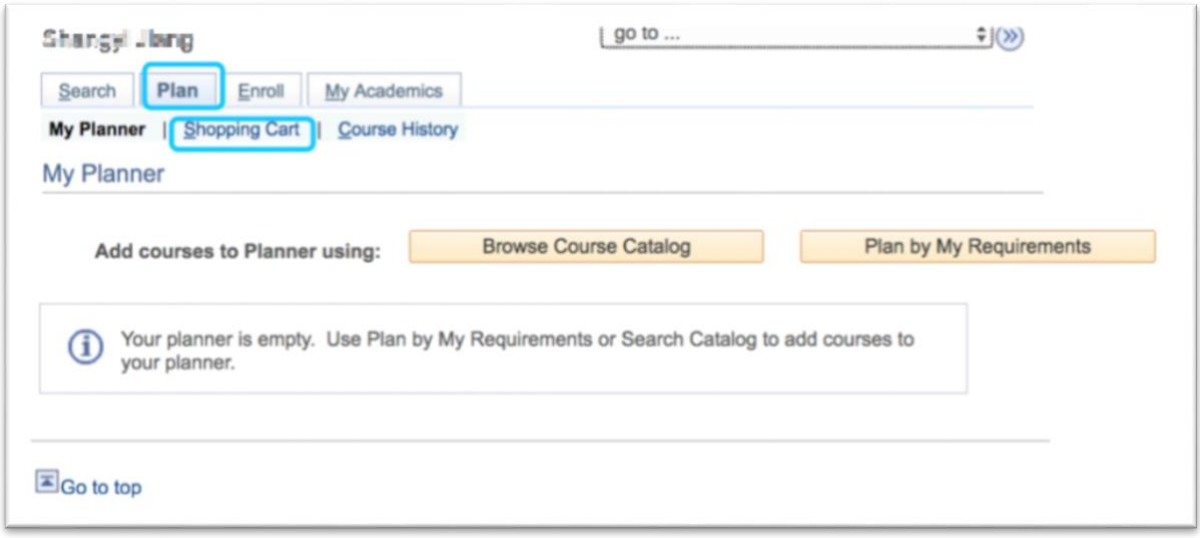
You will see a message to confirm that the class has been added to your Shopping Cart.



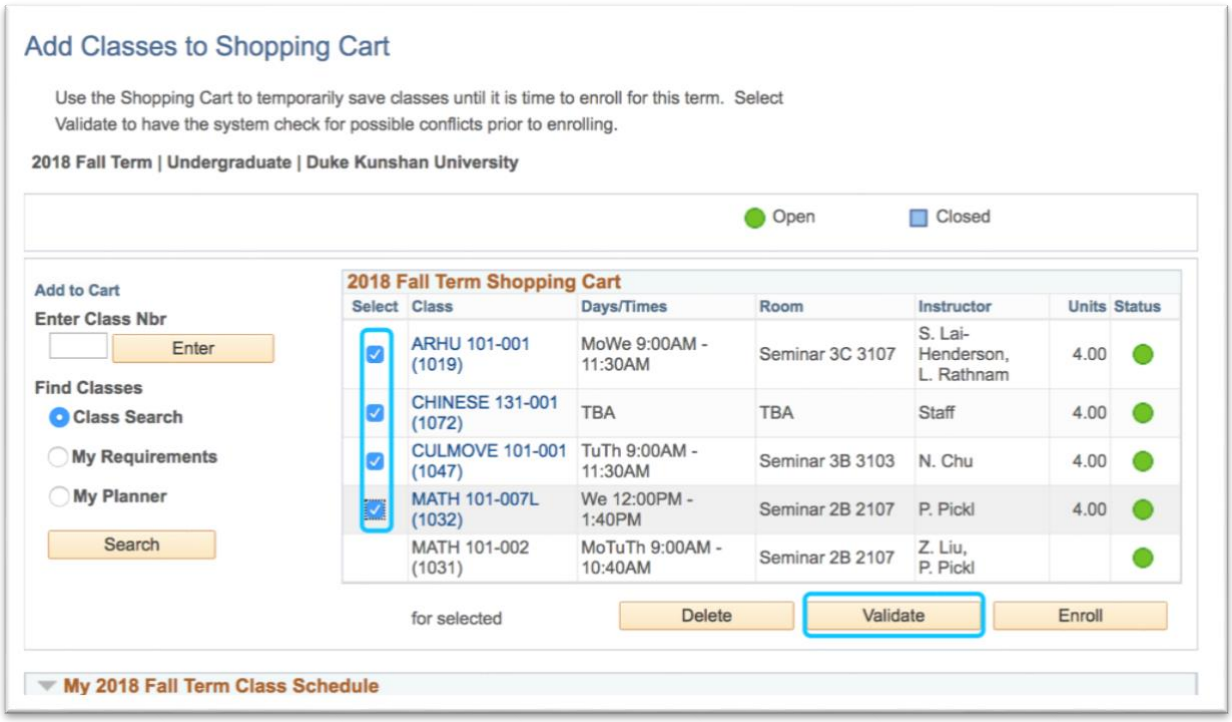
Please note adding a class to shopping cart doesn’t mean you have registered for the course. Read further for additional instructions.

2.2 Shopping Cart and Class Validation

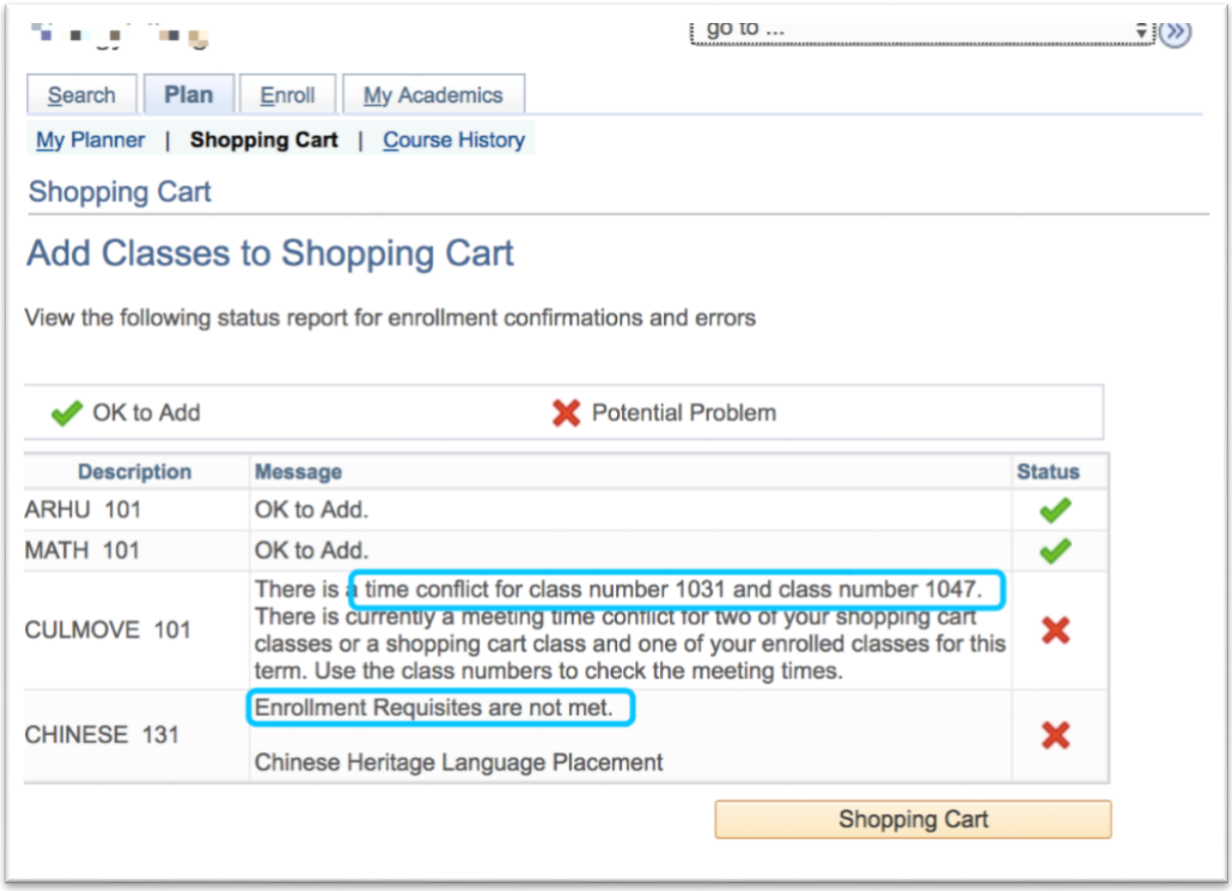
Navigate to the “Plan” tab and then click on “Shopping Cart”, you will be able to view the classes that you have added to your Shopping Cart.



Check the boxes next to the classes in your Shopping Cart and then click "Validate" to check if there is any time conflict or pre-requisite requirement among the list of your classes. Make sure you follow pre-requisite sequencing outlined in the Bulletin.



After clicking "Validate", the system will give you messages to let you know if a class is ok to add or has potential problems. If there is time conflict, you will need to go back to class search to add another class that has no time conflict. If a requisite needs to be met, you will need to choose a lower level class.

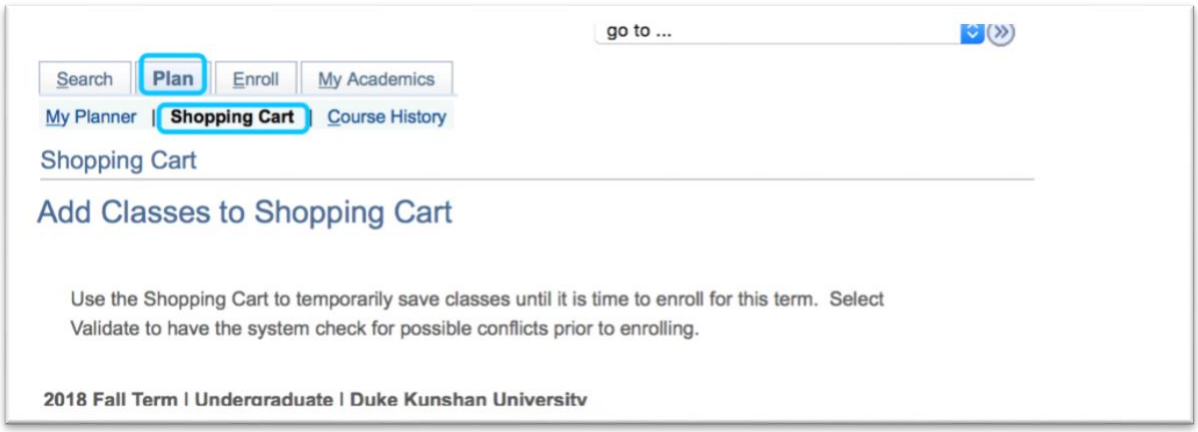


2.3 Enroll in Classes

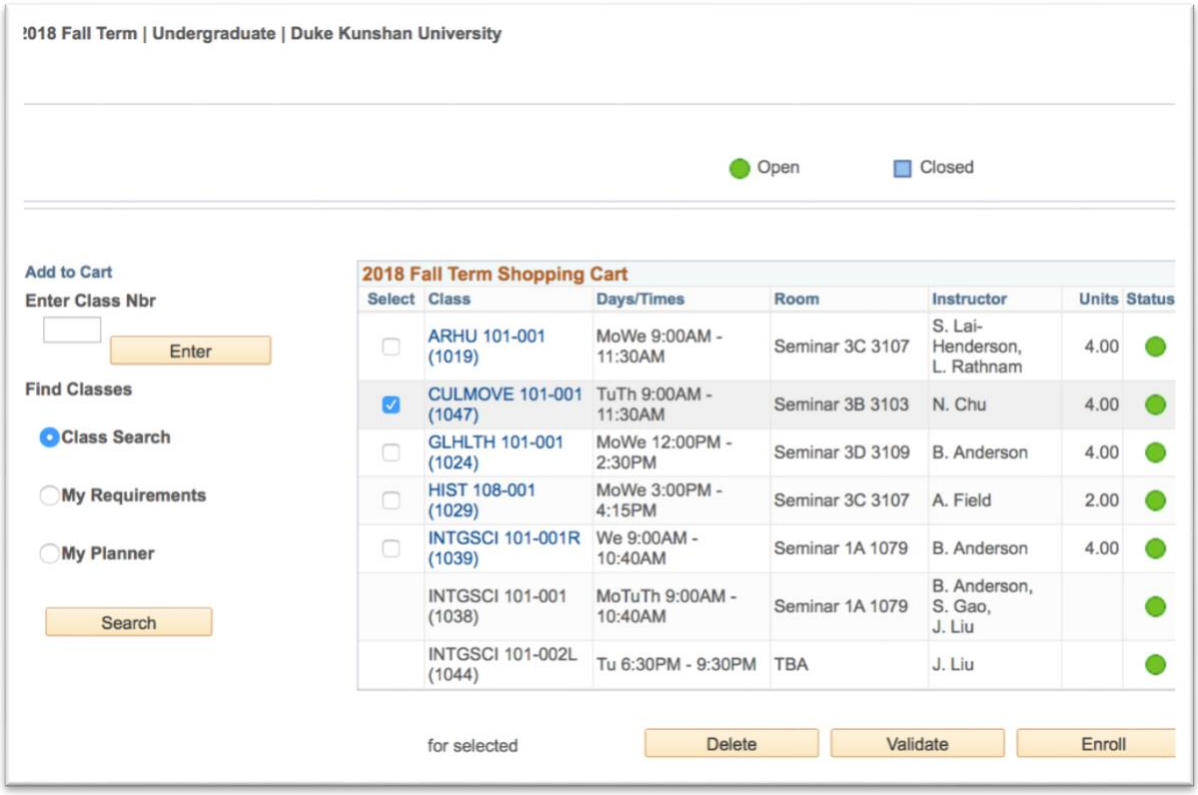
2.3.1 Early/Priority Registration Window

In order to maximize the opportunity for students to get a first-choice class in the registration process, Duke Kunshan University will assign first-year students an early/priority registration window to allow each student to register in four (4) credits first. Please consult your advisor or the Office of the Registrar in advance of your priority registration window opening to ensure you have proper advisement on course offerings.

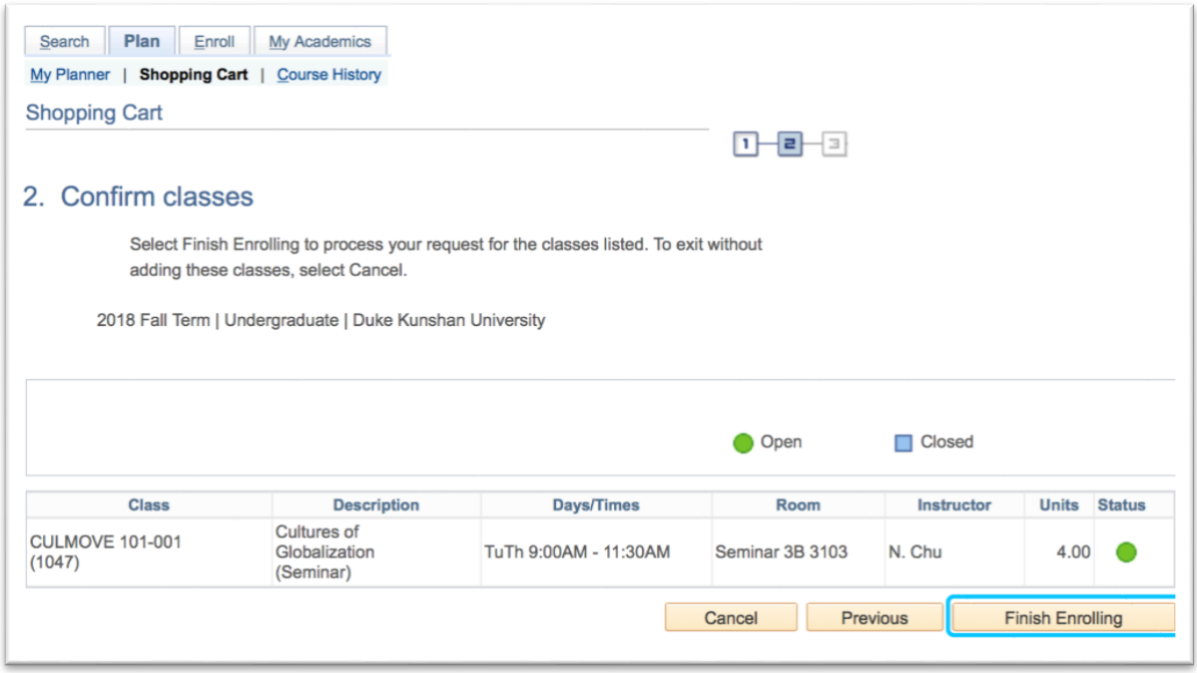
During this window, students need to go to “Plan” and then “Shopping Cart”, the page will land you on the page with a list of classes that you have already put in your Shopping Cart.



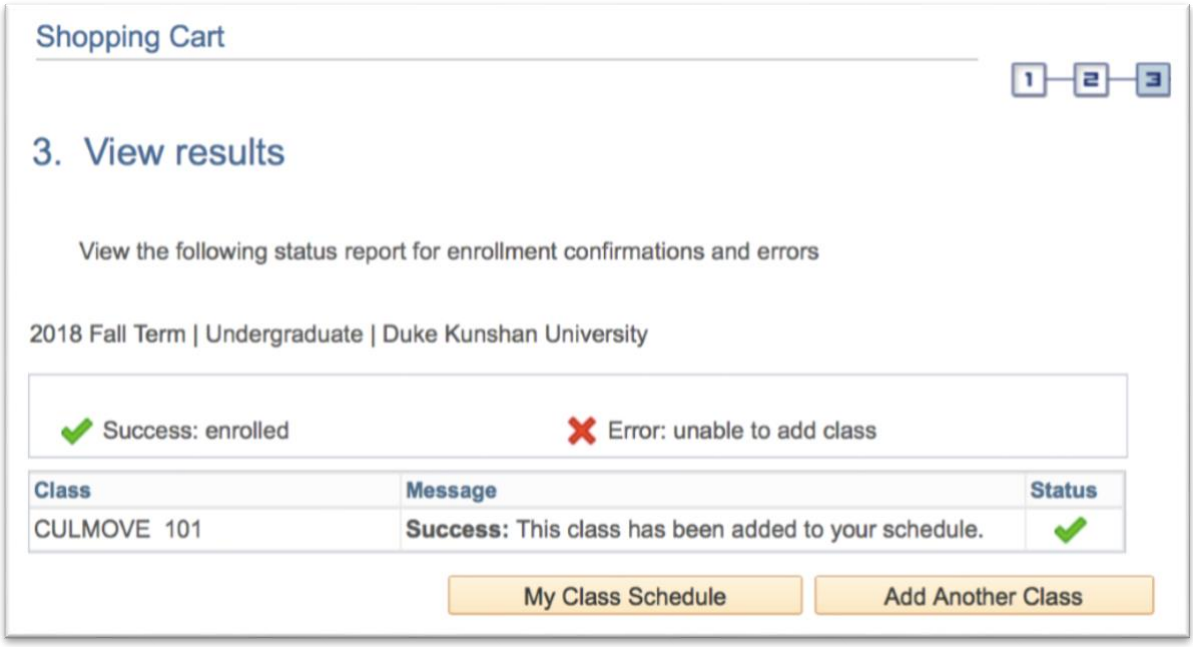
Since students can only register in four (4) credits during the early/priority registration window, you will need to check the class that you would like to register during this window and then click on “Enroll”.



You will need to click on “Finish Enrolling” to complete the whole enrolling process.



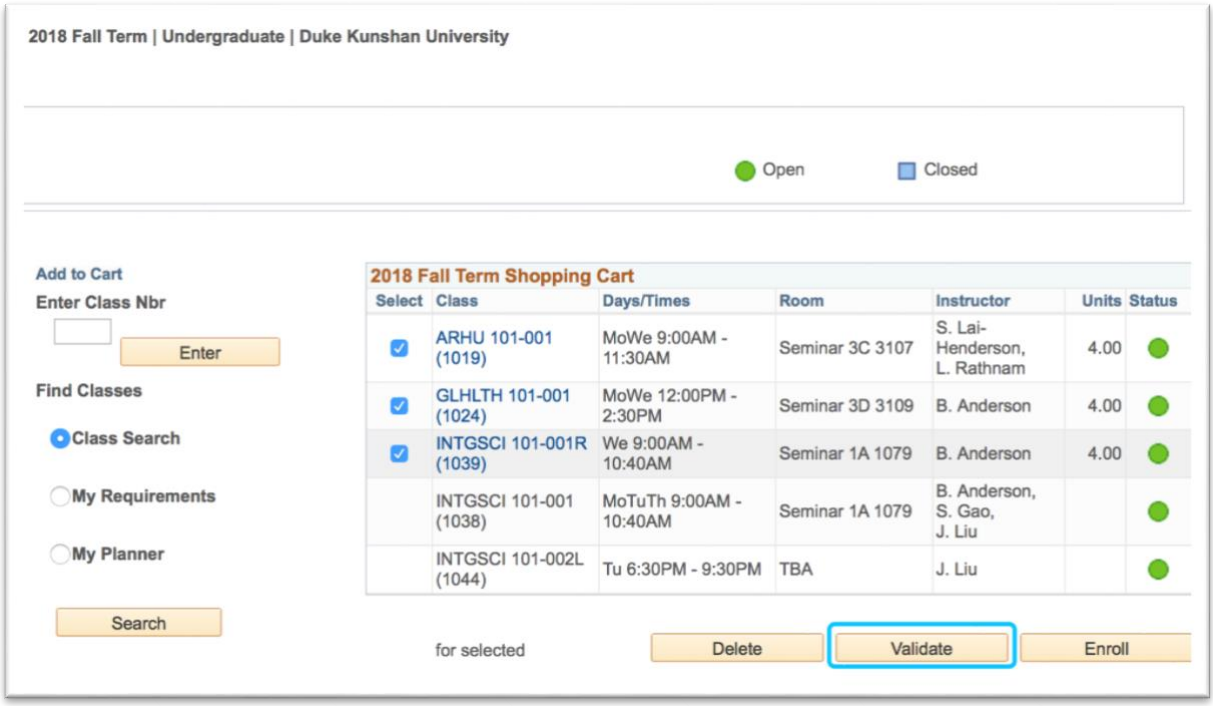
You will see a message of “Success: This class has been added to your schedule” to confirm that you have successfully enrolled in this class.



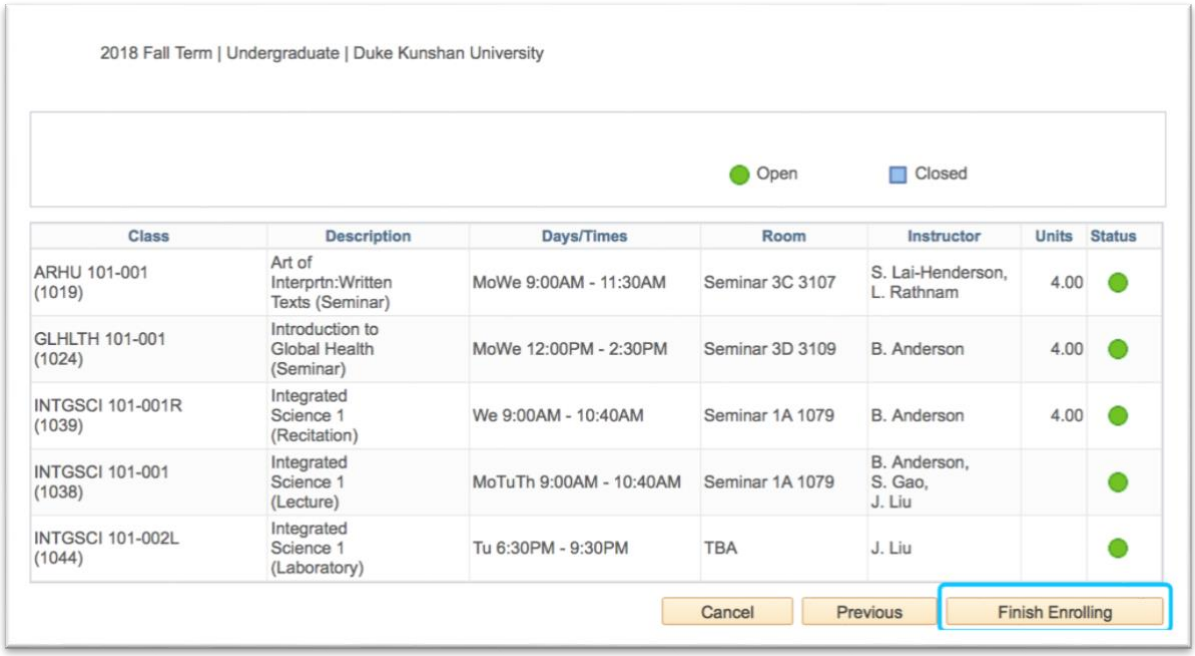
2.3.2 Regular Enrollment Window

When the regular enrollment window opens, students can repeat the process to enroll in other classes from your Shopping Cart. If a class runs out of seats, you will need to add another class to your schedule.

Always validate your schedule if you are to enroll in multiple classes. If the validation gives you no “Problem” message, you can proceed to click on “Enroll”.



Click on “Finish Enrolling” to complete the registration process.



Class	Description	Days/Times	Room	Instructor	Units	Status
ARHU 101-001 (1019)	Art of Interprtn:Written Texts (Seminar)	MoWe 9:00AM - 11:30AM	Seminar 3C 3107	S. Lai-Henderson, L. Rathnam	4.00

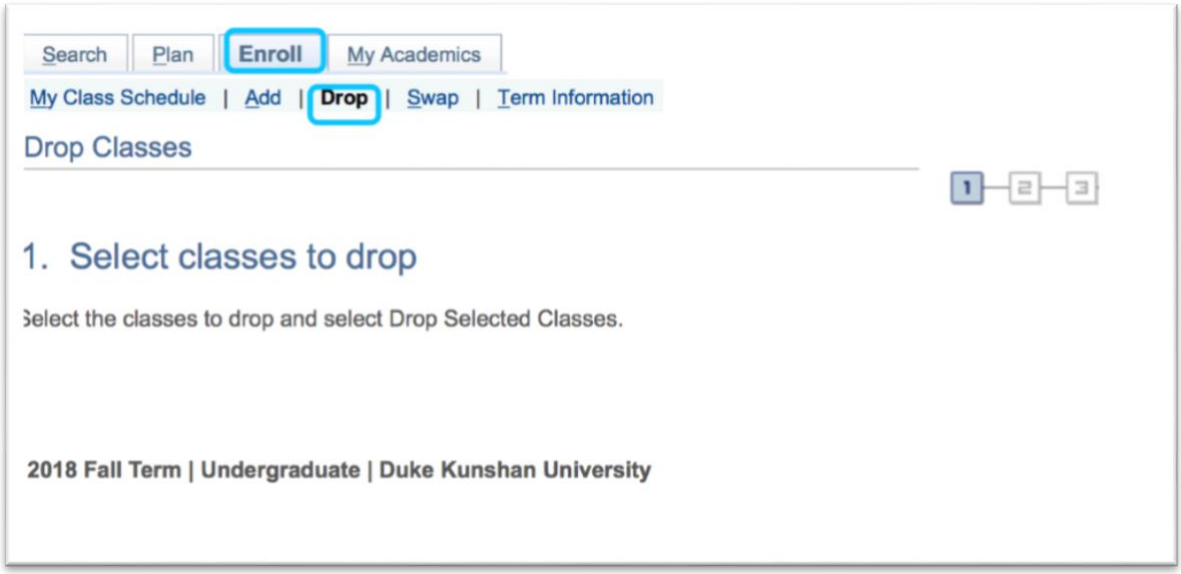
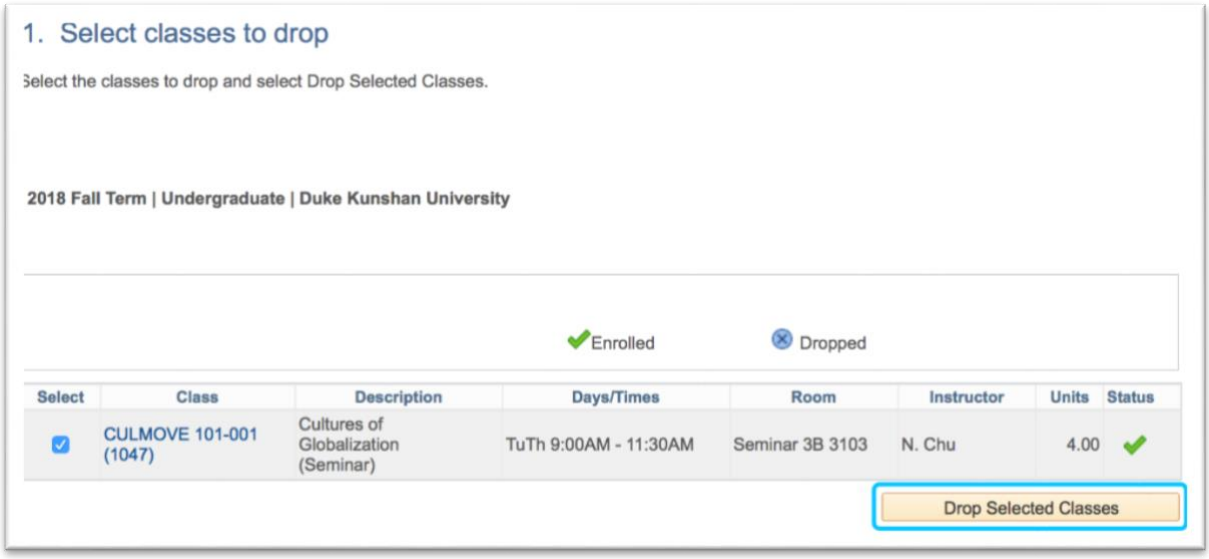
INTGSCI 101-001 (1038)	Integrated Science 1 (Lecture)	MoTuTh 9:00AM - 10:40AM	Seminar 1A 1079	B. Anderson, S. Gao, J. Liu		
INTGSCI 101-002L (1044)	Integrated Science 1 (Laboratory)	Tu 6:30PM - 9:30PM	TBA	J. Liu		

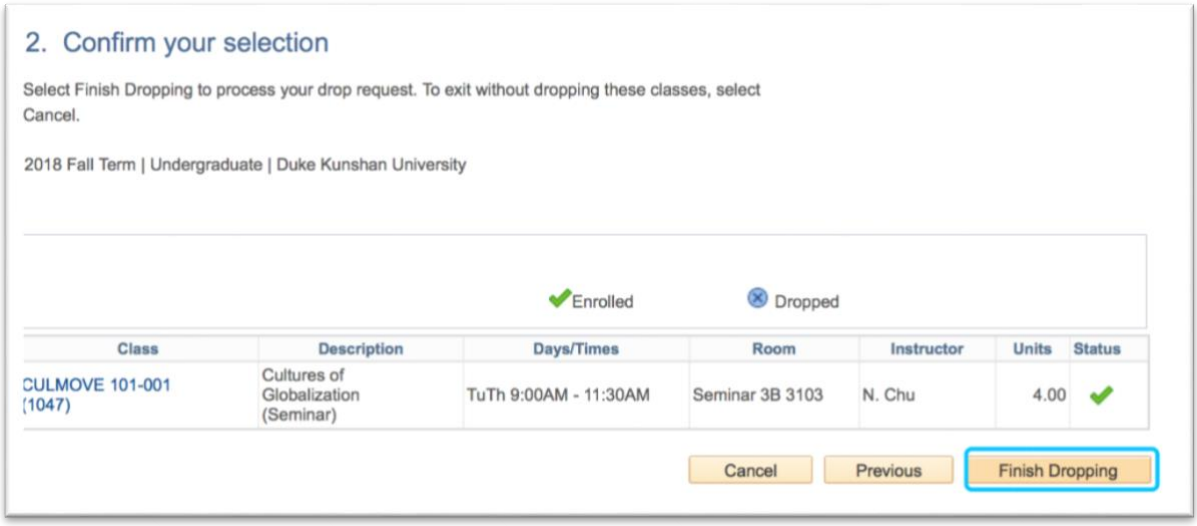
2.4 Drop a Class

If you need to drop from a class, you can go to “Enroll” tab and then “Drop”.

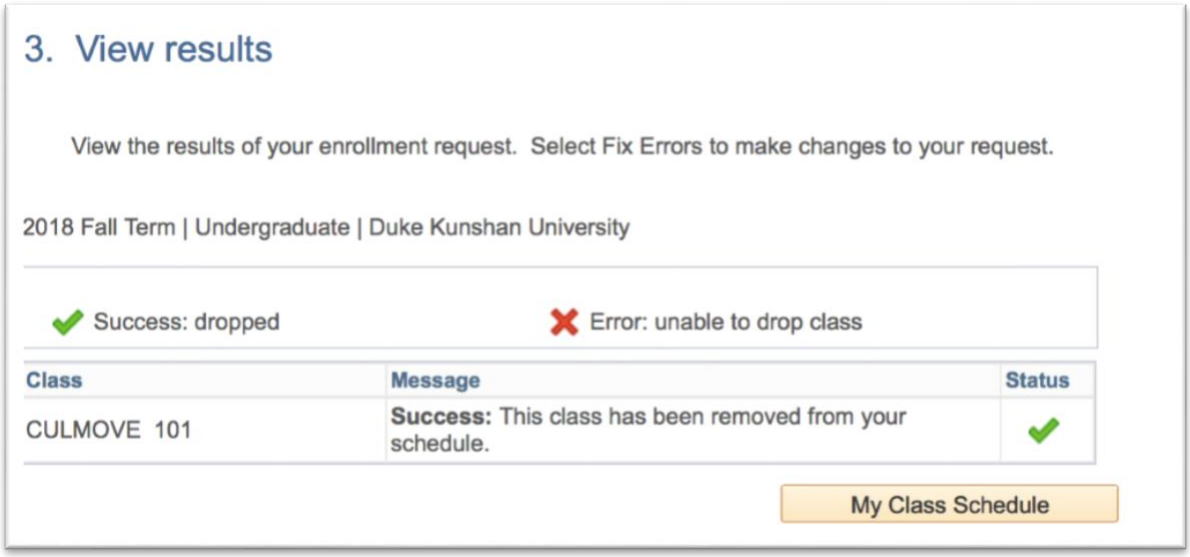


You will see the list of classes that you are already enrolled in. Check the box next to the class that you plan to drop, and then click “Drop Selected Class” and then “Finish Dropping”.





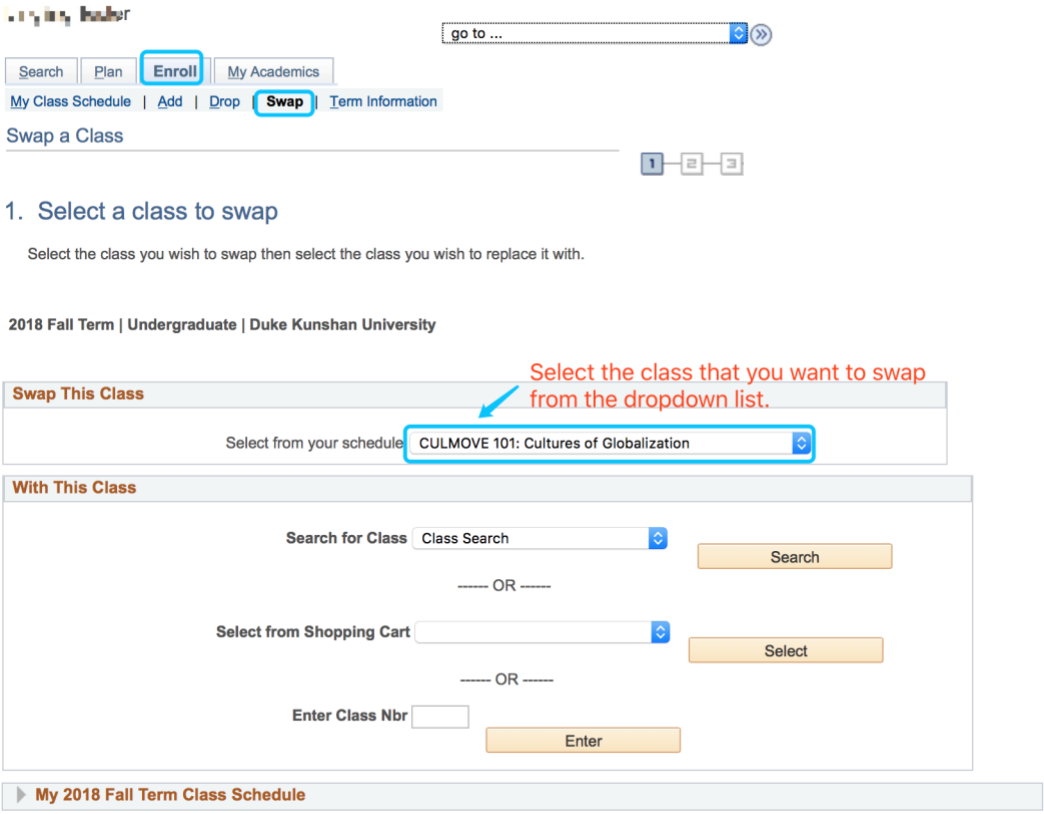
The system will give you a “Success” message if the class is removed successfully from your schedule.



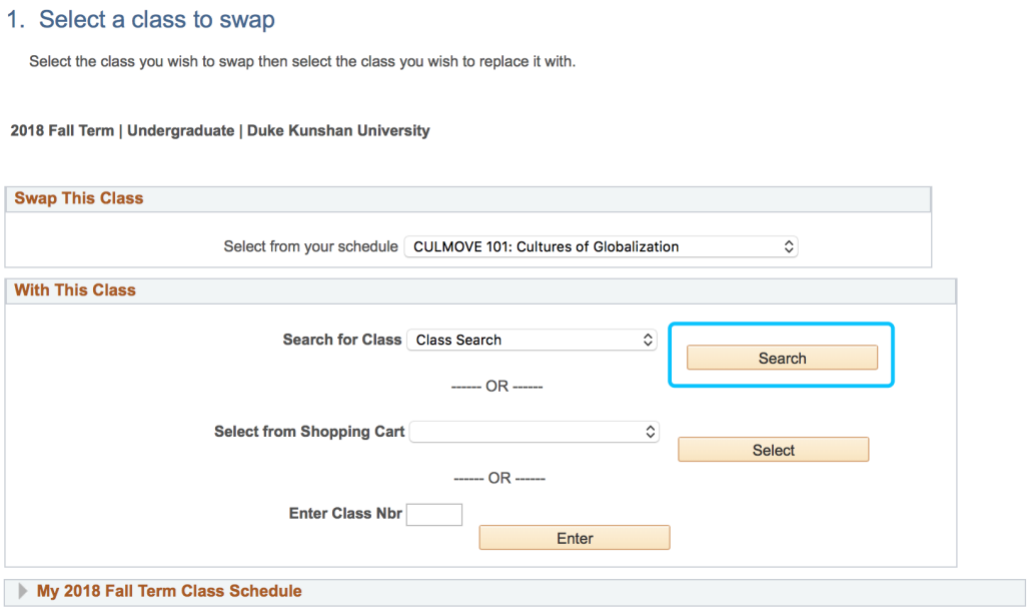
2.5 Swap a class

Class Swap function will allow you to change one class in your existing schedule to a new class. The difference from dropping and then adding a class is that you will be able to keep you original class if the swap is not successful.

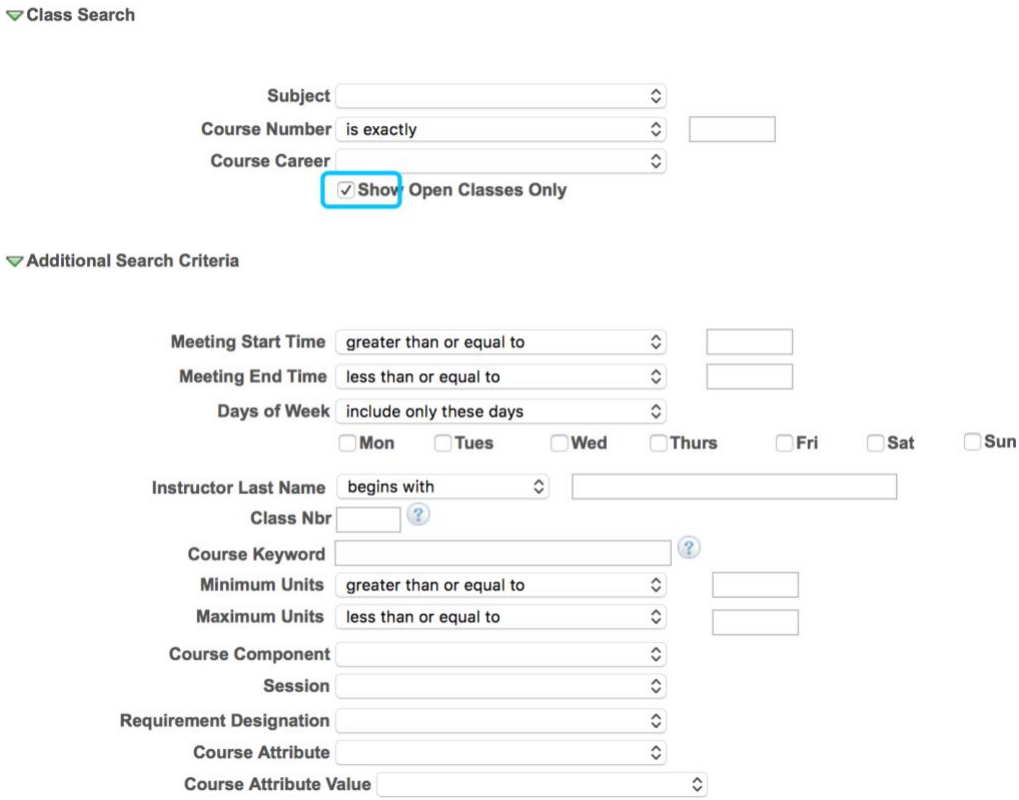
2.5.1 Choose the class that you would like to swap from the dropdown list.



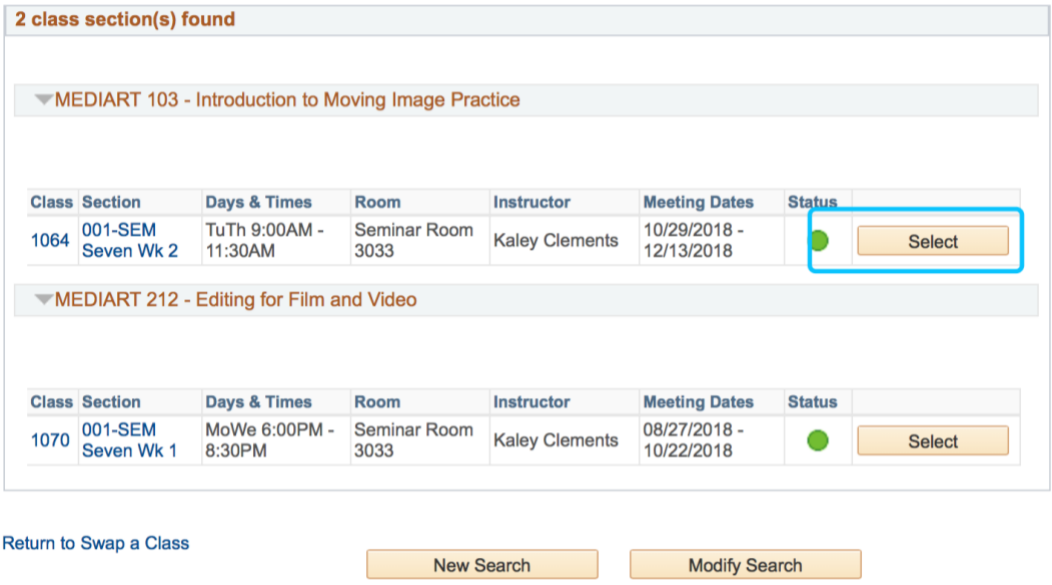
2.5.2 Click on “Search”, which will take you to the “Class Search” page.

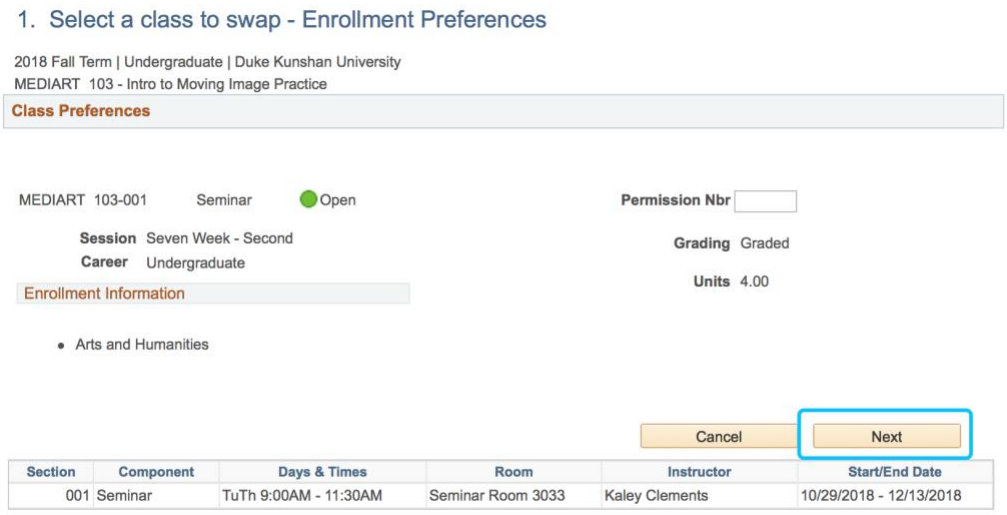


2.5.3 Search for the classes that still have seats available by click on “Show Open Classes Only” or other criteria.

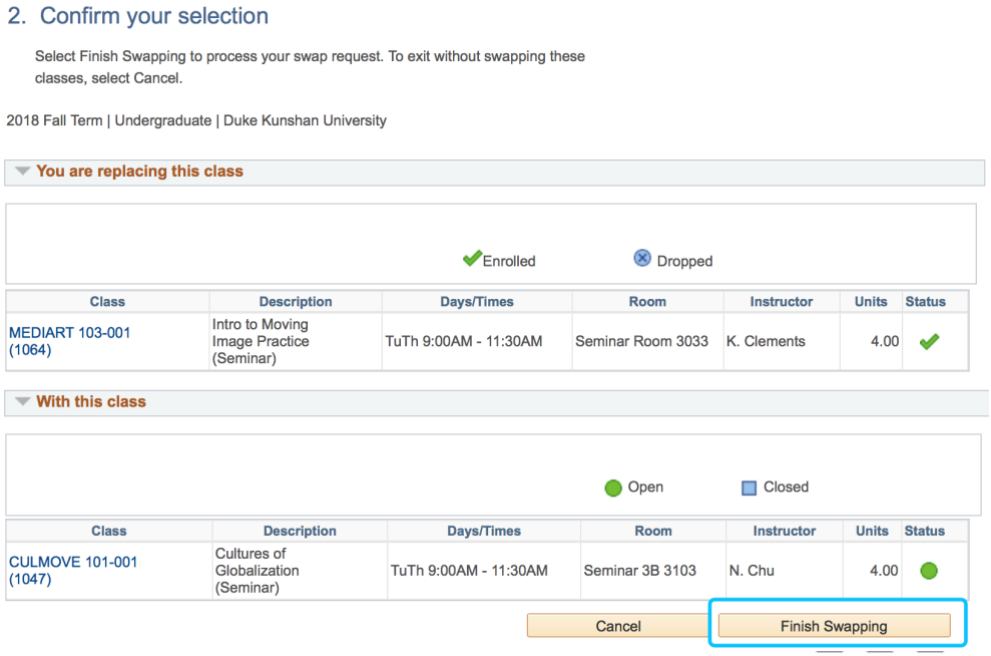


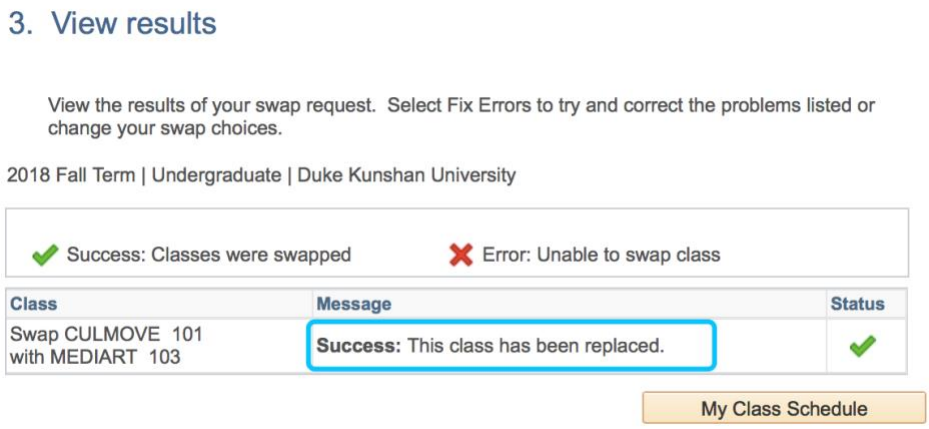
2.5.4 Click on the “Select” and proceed to “Next”.





2.5.5 Click on “Finish Swapping” to complete the process and verify the result.





2.5.6 If the swap is not successful, you will still have your original class in your schedule.
